SUMMARY

Information Technology graduate with hands-on experience in app and web development. Skilled in Flutter, Firebase, and database management (SQL, Firestore), with a strong focus on building responsive, user-friendly, and efficient digital solutions. Proficient in front-end development and UI/UX design, with solid problem-solving, teamwork, and project management abilities. Committed to delivering high-quality results and continuous professional growth.

WORK EXPERIENCE

Front-End Developer (Internship)

- Assisted in developing and maintaining responsive web interfaces using HTML, CSS, Bootstrap and JavaScript.
- Collaborated on UI/UX improvements to enhance user experience.
- Gained hands-on experience in coding, debugging, and deploying web applications.

Final Year Project (E-Traffic Challan System)

- Developed a Kotlin-based mobile application for managing traffic challans with roles for Admin, Officer, and User.
- Integrated Firebase for authentication and real-time data management.
- Implemented face/image-based recognition for violator identification with an intuitive user interface.

Semester Projects

- Tic Tac Toe Game (website): Developed using HTML, CSS, and JavaScript with interactive gameplay and responsive design.
 - Hotel Management System (desktop application): Built a desktop-based application for managing hotel operations and customer records.
 - Hotel Management System (Website): Created a web-based system using HTML, CSS, Java, PHP, and MySQL for booking, check-in/out, and data management.
 - Virtual System Setup (VSS Project): Configured two virtual machines and established network communication between them for data transfer and system testing.
-
